

TEAM17 Status Report #14

Date: October 25, 2024

Status Paragraph: Completed significant functionality improvements across all pages in preparation for the live demo that happened today in class.

Accomplishments	Notes	Date
Created search and filter functions for the discussion Forum	Items were sorted and displayed as they should be for the final version	10/24
Created search and default display functions for the event Hub, showing clubs that fit each	Only member count and club description are displayed at the moment, no location or events	10/25
Fixed and standardized styling for all pages		10/25
Created ability to view user's Google Calendar events in the events hub.		10/24/24
Created ability to view a map in the events hub.		10/22/24
Posts for health page in database and admin page created		10/23
Some backend for professor picker page (scraped from QUACS)		10/25
Fixed bugs that were preventing functional login	Login was broken due to an internal error, which took a long time to debug	10/24/2024

Plans (for next meeting):

- Book end of sprint meeting with TA and/or Dr. Callahan
- Work on filter function for Professor Picker. Log in vs. Sign up changing the HTML??

- Angela/Alex
- Make calendar events be displayed in a calendar format, and display clubs on map/be able to add clubs to the user's calendar. (Use github issue created by Alex for formatting)
 - Ameya
- Admin accounts and admin page, making sure user stays logged in once logged in
 - Nelson
- Fix liking for health page and maybe implement that form users can enter to request a resource
 - Grace
- Professor picker, implement backend for individual professors (user rating, calculate rating)
 - Grace
- Work on reviews database
 - Angela
-

Blockers:

- N/A

*****Notes:**

-
